Mukand unveils 16 TPH boiler at its facility

Mukand Limited, a leading name in the steel and engineering industry, proudly inaugurated its state-of-the-art 16 TPH boiler at its facility today. This new installation marks a significant upgrade from the existing 14 TPH boiler, enhancing the plant's capacity to generate steam at a rated pressure of 17.5 kg/cm². The increased capacity is designed to meet the growing steam demand and support Mukand's future expansion plans.
